Transition

Who Are You Becoming in the In-Between?

Transition is the in-between space where identity, voice, values, purpose, meaning, and direction may be shifting. You do not have to force meaning before you are ready.

THREE QUESTIONS

1. How has this disruption changed how I understand myself?

2. What am I still making sense of in this in-between?

3. What future direction is becoming clearer, and what remains unresolved?

Let your answers be information first. You do not have to turn them into a lesson, brand, or assignment.
